Professional Summary

Senior Full Stack Developer with 6+ years of experience building enterprise web applications using React.js, Next.js, TypeScript, Java, Spring Boot, Hibernate/JPA, Node.js, and REST APIs. Experienced in scalable frontend architecture, reusable components, API integration, database integration, unit testing, SonarQube, CI/CD, production support, and Agile Scrum. Delivered 15+ enterprise projects across Healthcare, AI, Smart Transportation, Procurement, SaaS, and Business Management domains.

Technical Skills

Frontend: React.js, Next.js, JavaScript ES6+, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Ant Design, Material UI, Redux Toolkit, RTK Query, React Hooks, Context API, React Router
Backend: Java 17, Spring Boot, Hibernate/JPA, Node.js, Express.js, REST APIs, JWT, RBAC, Microservices, Webhooks
Database: Oracle, MongoDB, MySQL, PostgreSQL, SQL, JSON
Testing & Code Quality: Unit Testing, JUnit, Mockito, SonarQube, Code Quality Analysis, Code Review
DevOps & Tools: Git, GitHub, GitLab, Jenkins, CI/CD, AWS EC2, Hostinger, Docker Basics, Maven, IntelliJ IDEA, VS Code, Postman, Swagger UI, Vite, npm
Engineering: Agile Scrum, SDLC, Performance Optimization, Code Splitting, Lazy Loading, API Troubleshooting, Production Support, Build Management, Deployment

Professional Experience

Senior Full Stack Developer **Mar 2020 – Present**
Mindbridges Technologies *Chennai, India*

- Developed and maintained enterprise applications using React.js, Next.js, TypeScript, Java, Spring Boot, Hibernate/JPA, Node.js, and REST APIs.
- Built reusable frontend architecture using Redux Toolkit, RTK Query, React Hooks, dynamic forms, responsive dashboards, and shared components.
- Integrated and maintained 100+ REST APIs covering authentication, validation, database integration, business workflows, and API troubleshooting.
- Improved application performance through code splitting, lazy loading, memoization, optimized rendering, and API caching.
- Performed unit testing using JUnit and Mockito, SonarQube code-quality analysis, code reviews, debugging, production defect resolution, and build troubleshooting.
- Managed Git workflows, Jenkins CI/CD pipelines, AWS EC2 deployments, releases, and production support.

Key Project Experience

Encipher Healthcare Platform **2020 – 2021**
React.js, JavaScript, Spring Boot, Hibernate, REST APIs, Oracle DB
- Developed healthcare modules for patient registration, appointments, doctor management, medical records, reporting, and API integration.

Innoura Website **2021**
React.js, HTML5, CSS3, JavaScript, SEO
- Developed responsive corporate website using reusable React components with pixel-perfect UI, SEO, accessibility, and cross-browser support.

Alpine Healthcare Website **2021**
React.js, JavaScript, REST APIs
- Developed healthcare pages, enquiry forms, appointment requests, dynamic content, API integration, and responsive UI features.

VisaVis Medical Application **2021 – 2022**
React.js, TypeScript, Spring Boot, Hibernate, REST APIs, Oracle DB
- Developed patient registration, appointments, laboratory reports, prescriptions, doctor consultation, and medical workflows with Spring Boot API integration.

247Medical Website **2022**
React.js, JavaScript, AWS EC2, Hostinger, REST APIs
- Developed responsive healthcare modules and deployed production builds using AWS EC2 and Hostinger.

G3 Cyberspace Website **2022**
React.js, JavaScript, REST APIs
- Developed responsive cybersecurity modules, interactive service pages, enquiry features, reusable components, and frontend performance improvements.

Cogent AI Application **2022 – 2023**

React.js, TypeScript, Spring Boot, Hibernate, MongoDB, ECharts

- Developed AI dashboards, analytics, charts, filters, reporting, and reusable visualization components with optimized React rendering.

Key Project Experience – Continued

ControlZen Application **2023**

React.js, TypeScript, Spring Boot, REST APIs

- Developed enterprise workflow modules covering authentication, RBAC, approvals, dashboards, notifications, and user administration.

TOSS Application (Croma) **2023 – 2024**

React.js, TypeScript, Redux Toolkit, RTK Query, Spring Boot, Hibernate

- Developed financial planning, eligibility, investment, loan management, onboarding, approval, and transaction workflows with complex dynamic forms.

PLATO Enterprise Project Management Platform **2024 – Present**

React.js, Next.js, TypeScript, Spring Boot, Hibernate, MongoDB

- Developed task management, sprint planning, resource allocation, dashboards, reporting, approvals, notifications, and user-management modules using reusable React architecture.

ANPR System Vehicle Monitoring Platform **2025**

React.js, Spring Boot, Hibernate, REST APIs, ECharts

- Developed vehicle monitoring dashboards covering camera integration, ANPR, vehicle history, search, alerts, reports, and analytics.

Builder Application **2025**

React.js, TypeScript, Spring Boot, REST APIs

- Developed onboarding, eligibility, planning, budget estimation, document management, approval workflows, dynamic calculations, and reusable forms.

TraqOps – CMRL Metro **2025**

React.js, TypeScript, Spring Boot, REST APIs

- Developed asset management, inspection, maintenance scheduling, incident tracking, dashboards, reports, approvals, custom hooks, and shared components.

TraqOps – BMRL Metro **2025 – 2026**

React.js, TypeScript, Spring Boot, REST APIs

- Developed asset management, inspection, maintenance, reporting, dashboards, notifications, workflow automation, API troubleshooting, and release activities.

Mirador AI Video Analytics Platform **2026**

React.js, TypeScript, Spring Boot, AI APIs, ECharts

- Developed AI-powered video analytics dashboards for live monitoring, incident detection, camera management, event logs, reporting, and surveillance workflows.

Twilio AI Voice Calling Platform **2026**

React.js, Node.js, Spring Boot, Twilio APIs, Webhooks

- Developed AI voice calling dashboards with call history, analytics, agent monitoring, notifications, reporting, Twilio APIs, webhooks, and backend integration.

Beetloop Product Development Platform **2026 – Present**

React.js, Next.js, TypeScript, Spring Boot, Hibernate, RTK Query, Oracle DB

- Developing Buyer/Vendor Onboarding, RFQ, Inventory, Product & Services, Project Management, Document Management, RBAC, approval workflows, dashboards, and REST API integrations.

Education

Bachelor of Computer Applications (BCA) **2017 – 2020**

Kalasalingam University, Krishnankoil, Tamil Nadu, India

Awards & Achievements

- **One Year Excellence Award** – Recognized for consistent delivery of high-quality enterprise applications.
- **Above and Beyond Award** – Recognized for rapid feature delivery and proactive production issue resolution.
- **Together We Rise Award** – Recognized for Agile collaboration, sprint delivery, and cross-functional teamwork.

Professional Highlights

- 6+ years of experience across React.js, Next.js, Java, Spring Boot, Hibernate, Node.js, TypeScript, REST APIs, and enterprise application development.
- Delivered 15+ enterprise projects across Healthcare, AI, Smart Transportation, Procurement, SaaS, and Business Management.
- Developed and integrated 100+ REST APIs with experience in frontend architecture, backend integration, databases, CI/CD, and production support.
